**Special Condition #4:** You shall abstain from the use of illegal controlled substances, and shall submit to urinalysis testing (which may include urinalysis or sweat patch), as directed by the supervising officer, but no more than 6 tests per month, in order to confirm continued abstinence from these substances.

**Supporting Evidence:** The offender is alleged to have violated special condition number 4 by ingesting a controlled substance, methamphetamine and amphetamine, on or about October 17, 2023.

On October 17, 2023, Mr. Werle submitted a urine specimen that returned presumptive positive for methamphetamine and amphetamine. The sample was thereafter sent to the national laboratory and was confirmed positive for said substances.

**U.S. Probation Officer Action:**

In response to his relapse, Mr. Werle was instructed to obtain an updated substance abuse assessment. He is currently engaged in outpatient treatment at Partners with Families and Children, and he is enrolled in the random urinalysis testing program. This officer also discussed the potential consequences of continued drug use and Mr. Werle appears motivated to address his relapse in treatment.

Given the above information, the probation officer respectfully recommends that the Court take no action at this time. Please advise the undersigned if Your Honor requires a different course of action or a court appearance by the offender.

I declare under penalty of perjury that the foregoing is true and correct.
